

A Coming Financial Crash

[Here's What Intel Sources Tell Me is Actually About to Happen](#) (Mike Adams)

NOTE: Mike Adams is the creator of [Brighteon.com](#) (a Christian alternative to YouTube), the creator and host of [NaturalNews.com](#), a food scientist, inventor, author, and a Christian. Each week he interviews several people in key positions and organizations and shares these interviews on [naturalnews.com](#) and [Brighteon.com](#).

“I have to share with you what guests and hosts say after we have an interview. Part of it is they are cautious about what they say publicly, because they don’t want to say something that they cannot completely verify. And part of it is after the interview is over, they will say: “Oh by the way, there is one more thing...”, and then they will share with me another key insight.

These are individuals in key positions, or individuals who know people in key positions in our government and the private sector, who have insight that the public does not have. In addition, sometimes I receive information from people in agencies who want the public to know what is going on. The following are key insights I gleaned from these important individuals:

They don’t see the stock market surviving past November or December of this year without a drop of 50% or more.

In addition, some large banks will fail, and perhaps be merged with other large banks.

A major financial correction is coming and appears imminent. We are very, very close to this happening.

We are very close to the end of this monetary system. And in order for those who created these crimes and money looting to cover their tracks of the crimes they got away with, they have to have a bigger crisis, such as a world war.

This is why the United States is provoking Russia into attacking the United States, and also trying to provoke China into attacking the United States.

That was the entire point of the recent executive order from Biden to undermine and destroy the Chinese semi-conductor industry, which basically annihilated China's semiconductor industry overnight.

I have compared that to the U.S. Navy's embargo of energy shipments into Japan that provoked Japan into attacking the U.S. at Pearl Harbor. That was a way to get Japan to attack the United States so the U.S. could claim victim and get massive popular support to oppose Japan in the war.

So it could be that our banking problems would be the least of our problems, because we will be in an escalating world war at the same time.

The financial system is in deep, deep trouble, and the tipping point of financial collapse is almost here. It will probably start in Europe, then Japan, then affect the U.S. stock markets, bond markets, and real estate. Then the dollar will fall, which could take place sometime next year.

We are likely to see the U.S. stock market get hit very hard really soon, within a matter of weeks. This would be followed by, if the markets go low enough, systemic banking failures.

Are we going to make it to election day? I don't know. It is still a couple of weeks out, and there is a lot the deep state could do to try to cancel the election.

The executive order attacking the Chinese semiconductor industry is very similar to the cancellation of Russia from the SWIFT inter-continental banking system, another act of war [that took place months before Russia's invasion of Ukraine]. And it is putting China in a position where it will have to lash out to end the economic suffocation of its semiconductor industry, which is one of its major industries.

To wrap this up, people who just listen to mainstream media are unaware of everything we just covered, and may be

destroyed by the financial collapse that is coming. Many, if not most will lose their bank accounts, they will lose the value of the currency they now hold, they will lose their jobs in many cases, and they will be destroyed by scarcity and price inflation in groceries, gasoline, and all of the essential goods that people have to have in order to survive.

Those who have good information, such as what you are receiving here, you have the ability to look ahead and prepare. You will be ready to move your finances from a failing bank to a solvent bank, like a smaller local bank for example, or some other asset holding that isn't subject to currency collapse [such as gold or silver].

You will have a forewarning here [Mike Adams' "Health Ranger Reports" and interviews on brighteon.com] in everything that I do, and guests that I interview, and articles on naturalnews.com. For a financial collapse that is working through the system, you may have two weeks to two months advance warning, compared to when the masses totally panic. And that's enough. You can do things during that period of time that can save you.

So stay tuned to my podcasts. I am Mike Adams, the Health Ranger. Stay tuned to my podcast at naturalnews.com and my situation updates on brighteon.com. There is a lot more coming, and check daily, because you may have only a couple of days warning and you may have to move very, very quickly.

So God bless you. I am going to do my best to keep you informed. And we will get through this together. We are not going to die, and we are not doomed, so don't ever think doom and gloom.

Are the Elite Taking Out Diesel on Purpose? How Important is Diesel to the USA?

- **“Between now and the end of November, if we don’t build inventories, the wolf will be at the door. And it will look like a big ugly wolf if it’s a cold winter.” Tom Kloza, Global Head of Energy Analysis at OPIS.**
- **God, family, and diesel – it is that important.**
- 75% of diesel engines power 75% of commercial trucks, that move freight, and 70% of diesel engines move almost 70% of the nation’s freight tonnage.
- The U.S. has just 25 days of diesel supply, the lowest since 2008.
- **Diesel is the fuel of the economy. Without diesel, the supply chains would collapse, and things simply wouldn’t work. And our military operates on diesel.**

Gas Gang Dream in 2021 – Diesel Inventory is Low

**WHEN DIESEL GOES
THE USA GOES WITH IT**

I had a dream in 2021 (when gas was cheap) of a gas gang that would steal big tankers. **Upon reflection, this diesel shortage is all by design and true order out of chaos. Diesel is a key of a healthy USA economy.**

[Diesel Shortage Could Shut Down Everything](#)

Everything in the USA runs on diesel and when diesel goes, the USA goes with it. Grocery stores have two-to-three-day supply of food. In these troubling times, gas / diesel will be precious commodity only second to food.

[Biblical Point of View](#)

I think the limited diesel supply (only 25 days of supply) is Seal 3 / 4 priming [the Black Horse and Pale Horse of Revelation 6]. The USA military runs on diesel and we have been giving many of our strategic missiles to Ukraine. From many dreams and evidence, we are getting primed to be invaded by China, Russia, and Cuba and overthrown from within.

America and the world at large are on the verge of a financial collapse and it is only a matter of time before the bubble bursts.

I came across a video by Gold 2020 Forecast, Bo Polny titled “November Military Conflict?! Financial Collapse?! Pride will be ‘THEIR’ Downfall! Bo Polny” 10.31.22. Excerpt follows.

“We’re in a year of Jubilee. God’s promised that He’s going to take down the dollar. God’s Word does not come back void...We’re about to witness destruction of debt. **All of this is about to blow up...It’s going to be very ugly, it’s going to be very bad for a lot of people...We have told people to buy water, extra water, extra food, hold God’s money [gold and silver].**

Haggai 2:8 ‘Silver and gold is Mine’ says the Lord.

We’re at a point in time where we’re just we’re about to witness God’s glory – that overturning of the financial system. **Something incredible is supposed to go down in the month of November. So we’re going to have a market collapse which is the stock markets, followed by the effect of what the agreement was in Saudi Arabia [the abandonment of the petrodollar, in which countries who want to buy oil have to buy them in dollars] which will crash the U S dollar.**

Three bullet points:

- **Number One is God’s got this [so draw close to the Lord for His comfort, guidance, and peace].**
- **Truth Number Two is you need to immediately if you haven’t done so – get to a local Costco or store – you load up on water, extra food, toiletries...that you might need for a period of time just so when the chaos hits because chaos is coming. Because when this goes down there’ll be riots.**

- **Thirdly, if you do have financial means – the financial system’s about to break. So if you haven’t purchased precious metals and you have the means to do it maybe you should. I’m not giving financial advice I’m just saying if you have financial means...maybe you should have some precious metals.**

Because not everybody does have the means and it’s okay but the point is God’s positioning His army.’

The Grand Pop – the Economy is About to Pop

Posted by [444 Prophecy News](#) on [2022/10/30](#)

Obadiah 1:15

15 For the day of the LORD is near upon all the heathen: as thou hast done, it shall be done unto thee: thy reward shall return upon thine own head.

During my time of prayer today, I felt an extreme heaviness upon me. The Lord spoke this word to me:

My son, SHOUT THIS WARNING now to My body. SHOUT THIS WARNING to this nation.

My son, the ECONOMY IS ABOUT TO POP! You will have no money, the banks will be closed, the ATM’s will be dark. THERE WILL BE NO LAUGHING.

WAR IS ABOUT TO POP! In an instant of time, things will go from normal to insane. Blood will flow in the streets. NO ONE WILL BE LAUGHING.

[See Urgent! Russia at DEFCON 2, Orders All Bomb Shelters in Moscow Open, Doctors & Nurses Now on Duty!](#)

The EARTH IS ABOUT TO POP! Great cataclysmic events will rock all people. Earthquakes so strong, you will not be able to stand. Floods so deep, all houses will be covered. Winds so strong, that the mighty trees are blown over. Fires so hot, that everything turns to ashes. ARE YOU LAUGHING NOW?

I say, REPENT NOW, for you do not know where you will be when it POPS!

REPENT NOW, have your heart and house in order. I SHOUT REPENT NOW, for I weep for all My children that are not ready.

My son, the JUDGMENT BALLOON IS READY TO POP, and this nation, this church and its people will feel it the worst.

BRACE YOURSELVES, MY REMNANT — IT IS READY TO POP, AND YOU ARE READY TO LEAD.

LITTLE TIME REMAINS FOR

MY CHILDREN TO PREPARE

Little time remains for My children to prepare. Some of you are being prepared to be called home to Me. Others of you will remain a while longer that you may lead lost souls into My Kingdom.

- **Many of you still play at worldly pursuits, as if there is much time remaining. For you it will be most difficult on that day when you awake to find your world will never be the same again. You have not heeded My warnings, nor made any preparations, not tried to understand.**
- **For My children who are preparing, come aside with Me. Sit in My presence and wait. I will instruct you.**

Finally, we are not to fear, but to seek our Lord with humility and boldness, knowing that He can give us peace, guidance, and joy, regardless of circumstances.
